VISHNU VARDHAN CHINTALA

Mobile: +91 9290105665
Email: chvishnuvardhan371@gmail.com
Sanath Nagar, Hyderabad, Telangana.

Professional Summary

Motivated and hardworking Networking Engineer specializing in routing, switching, TCP/IP, and LAN/WAN infrastructure. Proven ability to troubleshoot complex network environments and implement secure VPN solutions to optimize system performance.

Technical & Core Skills

Backend: Cisco CCNA R&D, Cisco Security
Databases: MySQL
Tools & Version Control: Git, GitHub
Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Leadership

Education

Bachelor of technology in Computer Science and Engineering
D.N.R college of engineering and Technology, Bhimavaram, W.G, AP | 2020 – 2024 | CGPA: 6.7

MPC – Board of Intermediate Education of Andhra Pradesh
Narayana Junior College, Poranki, Krishna, AP | 2018 – 2020 | CGPA: 5.9

SSC - Board of Secondary Education of Andhra Pradesh (BSEAP)
St Ann's E.M High School, Bhimavaram, W.G, AP | 2006 – 2018 | CGPA: 7.8

Internship

IIDT (International Institute of Digital Technologies)

- Developed a Netflix clone using the MEAN stack, implementing Angular for the front end, Node.js/Express for backend APIs, and MongoDB for managing user and video data.
- Implemented secure JWT authentication and collaborated on cloud deployment to ensure application scalability, reliability, and performance.

Andhra Pradesh State Council of Higher Education (APSCHE) and Edunet Foundation.

- Developed a responsive portfolio website using HTML and CSS to showcase student achievements and projects across different devices.
- Collaborated with stakeholders to create a clean, user-friendly interface with an organized and engaging presentation of content.

Academic Projects

Improving Crop Health: A Multi-Algorithms Approach for Pest Identification in Peanut Fields

- Used Vision Transformer (ViT) and Enhanced Vision Transformer Architecture (EViTA) for accurate pest identification in peanut fields.
- Performed pest recognition, segmentation, and classification using advanced deep learning techniques.
- Applied attention mechanisms and dual Birch segment representations to effectively combine different pest image regions.
- Achieved improved pest detection and classification performance compared to traditional convolutional neural network (CNN)-based models.

Portfolio Website

- Created and structured responsive web pages using HTML and CSS for an interactive student portfolio website.
- Implemented clean layouts, navigation, and user-friendly design elements to effectively present achievements and projects.
- Worked with stakeholders to understand requirements and delivered a professional, accessible, and mobile-friendly website.

Netflix Clone

- Built and designed a Netflix-style streaming web application using Angular, Node.js, Express.js, and MongoDB.
- Developed RESTful APIs, user login/registration, and authentication features using JWT for secure access.
- Integrated the front-end and back-end components, tested application functionality, and supported cloud deployment and performance optimization**.**

Certifications

Edu Bridge India, Capgemini.

- Java Full Stack Development

Zoom Technologies.

- CCNA R&D and Cisco Security

IIDT (International Institute of Digital Technologies)

- Full Stack Development

Andhra Pradesh State Council of Higher Education (APSCHE) and Edunet Foundation.

- Frontend Development

Language

English, Hindi, Telugu
